Why don't we ever tire of Christmas
Why does it never grow old
When the world all around us is so quickly changing,
Why is the story retold

Everyone walks a little faster
And there's excitement in the air
As the seasons have always passed from one to another
We can feel joy everywhere

CHORUS: Christmas is love, a special kind of love
Christmas is love, our hearts can't get enough
More than toys and fun, it is God's gift to everyone
Send from above, Christmas is love

Even the sound of children's voices
Seems more delightful as they play
When on other days we may not hear their laughter
Like we do on Christmas Day

REPEAT CHORUS

BRIDGE: Love opens our heart to each other
Love makes us all sisters and brothers
Love sees beauty in each new day
No one can take this joy we're feeling away

REPEAT CHORUS

TAG: Sent from above, His only Son (last chorus)
Christmas is love, love, love
Christmas is love
