

Biography

Loren Mulraine "See In Me"

For singer/songwriter/producer Loren Mulraine, it all starts and ends with the song.

From his days growing up singing in New York...to his college years studying Radio, TV and Film...to his time as a radio disc jockey...to teaching and then leading the largest music business program in the country...to his current career as an entertainment lawyer representing some of the leading artists in the music industry while developing the entertainment and music business program as law professor at Belmont University...Loren's story has always been laser focused on music.

Combining Gospel and CCM, with R&B flavorings and pop sensibilities, Loren's fifth solo project, *Father Forgiven – Deluxe Edition*, is his most dynamic recording to date. Produced by Loren along with Mike Alleyne, mixed by Grammy-nominated engineer/producer John Merchant, and mastered by renowned engineer Herb Powers, Jr., *Father Forgiven – Deluxe Edition* is the follow-up to his 2010 album *Fall On Me*, which included radio hits "I Am" and "Fall On Me."

After originally releasing *Father Forgiven* as a 5 song EP in 2015, Loren released the 13-song full project, in late 2017. The video for the guitar-driven "Father Forgiven" leaps from the speakers with Loren singing its *a cappella* intro before the cameras pick up band members one at a time, as the song develops - before culminating in a lush band and orchestral groove with a cinematic climax that symbolizes how our sins are washed away - "father forgiven, the very moment I believe, father forgiven, covered washed I've been made clean, my sins forgotten, thrown into the deepest sea, father forgiven, Father Forgiven!" The Philly soul ballad "All Things New" drives home the message "you make all things new, old things pass away, when I'm found in you, you make all things new." The hits keep coming with the tight vocals and grooves of "I Find You" and "See In Me" and the power ballad "More." The project continues to build to crescendo with the infectious "Power" – driven by a Motown groove and Loren's dynamic horn arrangements reminiscent of Earth, Wind & Fire, and the energy never stops! The acoustic soul ballad "Bread of Life" and is destined to be a fan favorite and has already had CCM radio success in secondary markets. "Glory of You," "Turning It Over" and "Holy" display Loren's unique and imaginative writing and arranging skills, and "I Want To Know You" and "Who Am I?" showcase his versatility as a writer, producer and vocalist. The project closes out with a totally reimagined reprise of "Power" - this time as a power worship ballad.

Loren's previous projects include *I'll Meet You There* (1993), *In His Shadow* (2000) which was critically acclaimed by *Billboard Magazine*, *Spirit and Truth, Chapters I & II*, (2007), and *Fall On Me* (2010). Get ready for the next phase of the journey...*Father Forgiven-Deluxe Edition*!
