I feel like an eagle with wings spread in the sky  
Transformation has been made in this heart on mine  
All I know is I've never felt better  
And nothing in this cruel world matters  
I have you here forever by my side

(Chorus)

I'm alive, alive in You tonight  
All my worries and fears are drowning in Your light  
Because of the cost you paid  
Father, I can freely say  
Oh I'm alive, alive in You tonight  
Alive in You tonight

Before I met love I felt six feet underground  
Until the day arrived when I heard that beautiful sound  
It was Your voice that came like a whisper  
You said follow your brothers and sisters  
There was no way I was going to miss this another mile

Where the spirit of the Lord is I am free  
Chains break, Heart awakes there is liberty

Repeat Chorus X2
